## REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The present invention contains 11 claims with 2 independent claims, namely claims 1 and 3. Claim 2 has been cancelled. Claim 1, now is amended to include the subject matter of the previously objected claim 2 ( now cancelled ). Claim 1 is now patentable over Galiani'347 and Galiani'770. New art, Koster ( Fig. 4 ), now found, appears to relate more to claim 3. However, despite similarity of the latter patent's device with that of the present independent claim 3, this patent's device fails to teach that the magnifying lens is attached to the front **or** the back of the holder; it is instead attached **between** the front and the back. Further, the patent's device fails to teach the attachment of the lens hinge **between the lens and the back**. Such an attachment, as noted in the patent, is **between the front and the back** .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
